THE JOHN MINEAR DESCENDANTS.

FOREWORD.

1164708

For several years I have been assembling the names of the descendants of John Minear and wife, (name unknown), who finally settled in Randolph (now Tucker) County, (West) Virginia. This task, an arduous one with many discouragements, is now presented in the most complete form possible under the circumstances.

Over 7000 names have been collected. It is my guess (not even an estimate) that at least 2000 others are not included. Many of the "children" disappeared in the latter part of the eighteenth and the early part of the nineteenth centuries and no further traces of them are known.

In regard to the accuracy of the list, please remember that all information had to be collected by correspondence. In hundreds of cases no direct replies were received and information has to be obtained from other sources. Very often the data were given from memory, which is always subject to error. Many of the dates and some names have been changed three or four times as later information would come in. (Occasionally a person's name would be spelled or given one way as a child and by the same informant would be spelled another way when given as a parent.)

The magnitude of the task, the difficulties in preparing the list, and the chances of error are great. There are over 7000 names of descendants. Each name has a separate number and from one to three dates: birth, marriage, and death. Thousands of names of persons are given as children and are repeated as parents; every marriage adds an additional name of husband or wife. This makes over 10,000 names and over 25,000 separate names, numbers, and dates. Most of the work has been copied two or three times and new numbers given as the lists expanded. So, if you find errors (and there are many), please consider the chances for making mistakes.

Effort was made to list the children in the order of their ages. Occasionally after the material was typed, additional information would show the first arrangement was not correct; but to change the order would have necessitated the changing of every number following; so the original arrangement was retained. Where the day, month, and year are given, they are usually authentic; while if only the year, or often no date at all is given, the information may not be accurate.

No effort was made to give biographies except for the earliest generation; to do otherwise would make a book too large, too expensive, too difficult.

John Minear is given the arbitrary Roman numeral (XVI); his children are (XVII); grandchildren, (XVIII); and so on. Every person in a generation is thus given the same Roman numeral but is given an Arabic number designating his place in the generation.

After some names will be found double or hyphenated numbers as (XIX 478-3). This means that after the regular numbers were allotted, new names came in and extra numbers had to be assigned. Many names have ***'s before them, indicating nothing is known about any descendants.

For those unaccustomed to the method of arrangement of the names, these suggestions are made. Remember all children of the same generation have the same Roman numeral but each child has also an individual number in figures. This same individual number is used if the name of the child is repeated as that of a parent.

Suppose you wish to find a particular name as Gertrude Spesert. Turn to the Family Index to the name Spesert. In this case you will find generations XXI, XXII, XXIII. Look in the body of the book among the children under XXI, XXII, and XXIII until you find the name, number (XXII 948), on page 123. Her parent is Willis Spesert (XXI 618). To find him as a child, (not as a parent), turn towards the front of the book among the XXI children. It will be on page 72. His parent is Mary Angelina (Maxwell) Spesert, (XX 249). To find her as a child, turn again towards the front of the book among the XX children and find her on page 45. Thus you can go back to John Minear (XVI).

You found Gertrude Spesert (XXI 948) on page 123, as a child. To find her as a parent turn towards the back of the book among the XXII parents and find her on page 183. Her children are XXIII.

Just before the indexes is some material about other branches of the Minears. This was inserted to keep the John Minear branch from being confused with other Minears not definitely known to be connected with those of this book.

There are many variations in the spelling of the name, Minear, and sometimes a variation in the same family. The name was originally German, but the early immigrants did not know the English spelling. Names written by clerks were spelled as they sounded. There are instances of the spelling as Minear, Mineer, Menear, Mynheer, Myneer, and in the Pennsylvania records even Minnegar. My effort was to spell the names as did the possessors of the names, but this was difficult to do.

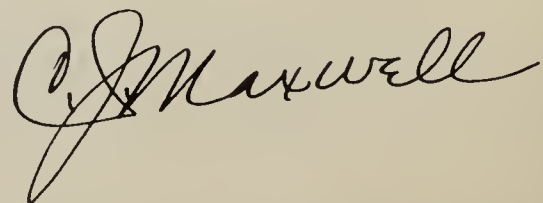

At the close of the general list of names is a section giving the descendants about whom nothing further is known. This was done in the hope that some one would know something about them and I trust much new information may be obtained and sent to me.

While no promise is made, if enough additional information comes in, it is possible that a supplement will be issued containing what is learned. It will be published if I am financially, physically and mentally able to do this. At least a list will be made of all additions and will be available to those interested.

My obligations to those who have assisted are great. It is impossible to list all who have aided but to all my thanks are expressed.

Short Biographies.

John Minear (XVI)

When and where was John Minear born? No one knows. When did he come to America? No one knows. Where did he live immediately after coming? No one knows. How many children had he? No one knows for certain. All certain information on these points is lost in the mists of the past. Only a few written evidences were left, but tradition furnishes a good many items. The compiler of this record was born and reared within three miles of the homesite of John Minear in (now) Tucker County, W. Va., and was personally acquainted with three of the grandchildren of John Minear. One of these grandchildren was the grandmother of the compiler. Information below is based on family tradition and on some written records.

It is understood that John Minear and family came to America from the Palatinate in Germany about 1755. Some reports say that his son David was twelve years old when they came, but David in his application for a Revolutionary pension states that he was born in 1755 in Bucks County, Pennsylvania. Where John lived for the next twenty years is not known. About 1774 he was in Hampshire County, (West) Virginia, where it is said he had lived several years. It is reported he assisted Col. Joseph Cresap survey land in Holly Meadows, (now Tucker County) in 1774 and while there saw the Cheat River valley. About 1775 he brought a colony from South Branch, (Hampshire County,) to Tucker county, and built a fort on the land later owned by S. E. Parsons. On account of Indian trouble the entire colony went back to Hampshire County but returned to Tucker County in 1776. This latter date is definitely known, for in that year John made a settlement and built a fort on (now) Mill Run, the site of present St. George. But in 1775 he had settled a tenant on some land in the Tygert's Valley (now Barbour County) at the mouth of Pleasant Creek. In 1781 he obtained title to both these tracts. (His reason for not staying on the land where the first fort was built in 1774 or 1775 was that James Parsons had made an improvement on it in 1769 which gave him a claim to the land.)

Several other families came with John Minear; among them were two Millers, Cooper, Salathiel Goff and two (?) Camerons. John Minear's first land was along the north side of Cheat River and extended down the River about two miles. South of the river, but a mile or so lower down, was the land of his son Jonathan; Cooper's land was two miles still further down at the foot of Miller Hill; Cameron located on the opposite side of the river from Miller Hill; Salathiel Goff's land was just above that of John Minear. These locations are mentioned to help locate the grants of land to the Minears.

John Minear seems to have been the leader of the settlers and on him was placed the general management of the colony. A fort was built at the present St. George on the site of the later court house. Minear built a mill there on Mill Run. (The name at first was Minear's Mill Run.) The fort was built of logs, notched and fitted close together so the Indians could not shoot between the crevices; there were no windows; light came in through port holes, as openings between the logs were called. The door was of heavy split boards thick enough to stop bullets. The chimneys were on the inside so Indians could not climb them; the fort was surrounded by palisades or a line of stout posts fitted closely together and about twelve feet high. The colony prospered for about four years with but little disturbance from but much fear of the Indians.

The settlers, in and around St. George, after living on their land some time and having fulfilled the settlement requirements, prepared to get deeds from the State of Virginia. About April 1, 1781, five men from St. George, (John Minear, two Millers, Daniel Cameron and Salathiel Goff) went to Clarksburg to complete the proofs of settlement. Their work having been completed, they started home. As they passed through Barbour County they were ambushed by the Indians and Cameron, Minear and Cooper were killed. A leather gun case had been hung by the Indians across the road, on noticing this, the men tried to escape, but their stopping had given the Indians a fair chance to aim. The time of this is fixed by the dates on the Land Entries made for them at this meeting, April 5, 1781. John Minear entered two tracts of land for himself. Land Entry Book One, page 52, Harrison County, "400 acres mouth of Pleasant Creek to include the settlement of 1775"; page 53, "400 acres opposite Clover Run to include his settlement of 1776 with preemption of 500 acres adjoining." The first tract was the one later owned by his son Adam Minear and the second was the home place in St. George.

A party of soldiers from Clarksburg found the bodies and buried them where found. Years later when a road was being made the remains were uncovered and identified by certain features of the skeletons. The bodies were reburied near the same site. A marker was erected near there some years ago but has been destroyed. The grave is now unmarked. It is located on the Frank Norris farm about seven hundred yards from the bridge at Berryburg Junction and thirty yards from the river.

The order of birth of the children of John Minear is unknown. They are listed in the order generally believed to be correct. Much more space is given to David Minear than any other child, because he left more preserved material. He lived and died on the home place of his father while the others moved to different places and records were not kept in memory. Efforts were made without results to get additional information about them.

Children of JOHN MINEAR (XVI)

David Minear (XVII 1)

David Minear (XVII 1) was born, likely, on July 31, 1755, though some reports make it a little earlier. He seems to have been the oldest child. Many of the events of his life are given in his pension application at the close of this sketch.

David came with his father from Hampshire County to Tucker County about 1776; at the death of his father in 1781 he seems to have become the head of the family. He was married to Catherine Saylor (Sailor), April 21, 1787, the ceremony being performed by Rev. J. W. Loofborough. In those days the groom had to give bond that there "was no lawful cause to obstruct the marriage." This bond was signed by David Minear, Thomas Douglass, and John Haymond and witnessed by Benjamin Wilson. At the same time a certificate giving permission for the marriage was signed by John Sailor, Lizbeth Sailor and was witnessed by Frederick Sailor and Philip Minear; evidently John and Elizabeth Sailor were the parents of Catherine; Philip Minear was a brother to David; Frederick Sailor was a brother of Lizbeth. (All these papers are on record in Book One, page 37, Harrison County, W. Va.)

David was much interested in the religious life of the colony. He went to the Methodist Conference "East of the Mountains" and had St. George included in the con-

ference and a minister assigned to it. A separate room in his home was reserved for the minister on his visits and no other person ever occupied it.

John Minear built the first mill and his son David built the first stone house in Tucker County. David was Overseer of the Poor in 1787 and Constable in 1789. He died of cancer of the throat in St. George, Oct. 21, 1834 and was buried there. In 1928 his descendants erected a large native stone marker at his grave.

Pension Application of DAVID MINEAR (XVII 1)
for Services in the Revolutionary War

Randolph County
State of Virginia

Personally appeared before me, the subscriber, an acting Justice of the Peace, in and for the county of Randolph and State of Virginia on the 6th day of November, 1833, David Minear, a resident of the said county of Randolph and state of Virginia, aged 78 years and three months, who being first duly sworn according to law doth on his oath make the following declaration in order to obtain the benefit of the Act of Congress passed June 7, 1832. That he entered the service of the United States under the following named officers and served as hereinafter stated. That in the year 1779 in the county of Monongahela in the spring of this year I volunteered in a company rangers commanded by Captain William Haymond. Our principal station was at Morgantown. From this place we were often out on Ranging Parties until the winter of 1779-80 set in. We were then engaged in guarding the fort or town until the spring of the year of 1780. I was discharged having served this company of rangers near nine months. In the spring of the year 1780 after I had been discharged by Captain Haymond I went to Kentucky in company with my brother Phillip Minear in order to explore and view that country. We arrived at the Falls of the Ohio where Lewisville now stands. We arrived at this place about the 20th of March. We remained in this neighborhood until sometime in the month of June or July when we were drafted for a term of duty the precise length of which is not recollected. A few days after our company was formed we joined the army under the command of General Clark and marched up the Ohio River to the mouth of Licking Creek. As the canoes and boats appeared (approached) the river they were fired upon by the Indians and killed and wounded nine men of whom 4 were buried in the sand on the river bank. This attack was as well as this affiant remembers about the third day after the army left the falls.

From the mouth of Licking Creek we crossed the country then a wilderness to the Indian town called Chillicothe. We found this town evacuated by the Indians and the houses and wigwams on fire as the Indians had fired the towns before they fled. We stayed at this place no longer than to cut down and destroy the growing crops of corn which we did. We then marched to the Picua town about twelve miles from Chillicothe. At this place the Indians made a considerable stand as well as the affiant recollects the battle lasted about three hours. At this battle I believe there was fifteen Indians found dead, many having been removed as was the custom of the Indians to remove all their dead they possibly could I believe our losses was about 15 killed. We destroyed this town by burning the houses and we also cut down all the corn belonging to the Indians. It was supposed that at the two towns there was not less than 300

acres of corn destroyed. After the battle had ended we gathered all our dead and buried them in the floor of the Indian houses and then burned the houses down to disguise the graves. But the Indians made their boast afterwards that although we had been cunning in disguising the graves they had found them and had raised the dead and had scalped them. After the battle of Picua town we marched back to the fort or station at the falls of the Ohio.

When this affiant was drafted he was placed under the command of Captain Brisco. This affiant also recollects that Col. Lyon was with the army as well as the affiant remembers this army was about one thousand strong when we left the falls but not quite so many when they reached the towns.

In the spring of 1780 the Indians had attacked the settlements in Kentucky and had taken two stations and led the captive prisoners to the Indian towns. This as the affiant believes was the cause of the expedition of General Clark as described by affiant.

When we arrived at home from the expedition we were ordered to keep our selves in readiness to march at a moments warning as the Indians were expected to take vengeance the first opportunity and in fact it was but a short time after our arrival at home that they were again in small numbers plundering the country and in some instances killed some few who were hardy enough to leave the fort. I recollect that about 4 weeks after the arrival of the troops at the fort there was a man brought in who had been killed by the Indians. His name I do not recollect. I was employed the balance of that year until about the first day of December in guarding the fort and making short excursions in the country at which time I was discharged by Captain Brisco having served six months. I then with my brother came back to the county of Monongahela in the state of Virginia. In the spring of the year 1780 the Indians made an attack upon the settlement of Cheat River and killed first Barney Sims. This happened whilst I was in Kentucky. In the month of April, 1781 the Indians again made an attack upon the same neighborhood and killed three men one of which was affiant's father, Frederick Cooper and Daniel Cannon. This attack caused Col. Benjamin Wilson to order out the militia and affiant was drafted and placed under the command of Captain Salathial Goff under whose command I remained during this term which as well as affiant remembers was six months. During which time they were employed in excursions in every direction for many miles around the fort and in guarding the fort and in going from one fort to other forts in the county. The fort to which this affiant properly belonged was called Manier fort upon the land of the affiant's father. In the month of March in 1782 this affiant was again drafted and placed under the command of the aforesaid Captain Salathial Goff and was engaged during the summer in Ranging the country from Maniers fort on Cheat River to Wilson's fort on the Tigarfts Valley and as far as Morgantown and Dunkers Creek and when not out on Ranging parties the affiant was engaged in guarding the fort until the time of the year had expired when the Indians usually committed their depredations. When this affiant was discharged having served full six months. That in the spring of the year 1783 in the month of April as well as the affiant remembers on the 16th day the Indians again made their appearance and commenced their depredations in the affiant's neighborhood. On this day they killed and scalped his brother Jonathan Manier. They the Indians took from his head a large piece of scullbone and stuck it in a stump by way of triumph. This affiant was again drafted and put under the said Salathial Goff and was again employed during the spring, summer and autumn of this year in Ranging and guarding the guarding the fort as aforesaid for the term of six months. When this affiant was dis-

charged after having served full six months. From this period to the end of the war this affiant was often actively engaged in Rangeing, spying and guarding the country against the depredations of the Indians.

This affiant hereby relinquishes every claim whatsoever to a pension or annuity except the present and he declares that his name is not on the pension roll of the agency of any state. Subscribed and sworn to the day and year aforesaid.

(Signed) David Minear

(The following are answers to questions but the questions are not in the record.)

He hereby relinquishes all claims whatever to a pension or annuity except the present and declares that his name is not on the pension roll of the agency of any state.

I was born in Bucks county, Pennsylvania in the year 1755.

I have. It is in a book in my possession. Taken from the family record.

I was living upon Cheat River in the county of Monongahela. I reside upon the same farm at this time but by division of counties now in the county of Randolph.

The first term I volunteered. Ever after I was drafted.

I am not certain that I knew any of the regular officers as I never served with any army except in Kentucky. I then knew Capt. Brisco, Col. Lyon and General Clark.

I have never received a written discharge.

I refer to Thomas Parsons and Aaron Loughry as persons who can testify to my character and belief of service.

Sworn and subscribed this day above written.

(Signed) David Minear

We, Thomas Parsons and Aaron Loughry residents in the said county of Randolph, hereby certify that we are well acquainted with David Minear who has subscribed and sworn to the above declaration, that we believe him to be 78 years of age, that he is reputed and believed in the neighborhood where he resides to have been a soldier of the Revolution and we concur in that opinion. Subscribed and sworn to this the 6th day of November, 1833.

(Signed) Thomas Parsons
Aaron Loughry

And I the said Justice of the peace do hereby declare my opinion after the investigation of the matter and after putting the interrogatories prescribed by the War Department that the above named applicant was a Revolutionary soldier and served as he states and I the said Justice further certify that it appears to me that Thomas Parsons and Aaron Loughry who has signed the preceding certificate are creditable persons and that their statement is entitled to credit and I the said Justice further certify that there is no clergyman residing in the neighborhood of the above named applicant and that he from bodily infirmity is unable to travel (to the courthouse of the said county of Randolph from which he resides) 30 miles and I the said Justice further certify that the foregoing contains the original proceedings of myself in the matter of the application of David Minear for a pension. In testimony whereof I have hereunto set my hand and seal this the 6th day of November, 1833.

(Signed) Samuel Bonnifield J. P. Seal

Virginia

Randolph county Ss

I Archibald Earle, Clerk of the county Court of Randolph county do hereby certify that Samuel Bonnifield before whom the above affidavit was made was at the time and still is an acting justice of the peace for said county and that to all his acts as such due faith and credit is and ought to be given as well in Courts of Justice as such and I do further certify that I believe the above signature of Samuel Bonnifield to be genuine.

In testimony whereof I have hereunto set my hand and affixed the seal of said county this 30th day of December, 1833 and in the 58th year of the Commonwealth.

(Signed) A. Earle, Clk R. C.

The above is from the photostatic copy of the originals in the pension Department in Washington.

A letter from the Department of the Interior, Washington, D. C., states that David Minear (Manier) was granted a pension by certificate 23,565, of February 28, 1834; eighty dollars a year from March 4, 1831; his record number is Survivors File 15932.

This record enables any descendant to join the Daughters of the American Revolution or Sons of the American Revolution.

Philip Minear (XVII 2)

Philip Minear (XVII 2), born March 31, 1761; lived in Hampshire County, (West) Virginia and in present Tucker and Barbour counties. He moved to Ross County, Ohio, where he died Oct. 17, 1848. He is buried in Springbank Cemetery, near the village of Yellow Bud. He first married Winnie Farmer (or Halleck); following her death married Elizabeth Ritchard, who died Feb. 27, 1855.

Philip went with his brother David to Kentucky "to explore the land" and was drafted in the army. (See application of David Minear for a pension.) He was recommended as Lieutenant of Militia in Harrison County (now Randolph) in 1785. In 1798 he sold Luke Bryan 300 acres, part of the 400 acres William Haddox survey which he had leased. This was in Barbour County. At the same time he had 200 acres and 400 acres "by right of residence" on Cheat River, (Tucker County,) near the mouth of Buffalo Creek. This was obtained Oct. 5, 1783. On March 6, 1798, he made a deed to David Minear for 50 acres on both sides of Minear's Mill Run between the lands of Salathiel Goff and John Minear.

As personal property Philip was assessed in Randolph County with 4 horses and 14 cows, while at the same time his brother David was assessed with 1 horse.

Adam Minear (XVII 3)

Adam Minear (XVII 3) was born probably in Pennsylvania for his father seems to have lived some time in that state. So far as known he did not get any land direct from the state of Virginia but he obtained the tract in Barbour County, at the mouth of Pleasant Creek. This was deeded to him by various heirs of John Minear. The date of his birth or marriage is not known. His wife was Elizabeth Cobb.

Many of his descendants now live in West Virginia in Randolph, Barbour and Taylor counties, though a large group (descendants of his son Isaac), live in Indiana.

No record of his will has been located; his home place was purchased by John Howe Woodford, his son-in-law. There is a report that he moved to Kosciusko County, Indiana, with his son Isaac. Several early Minears are buried there but the graves are all unmarked and the location lost.

John Minear (XVII 4)

Of John Minear, Jr., (XVII 4) very little is known. He seems to have had property, for in September 1789 the court in Randolph County (West) Virginia, recorded that Philip and David Minear, his brothers, reported that their brother John "was crazy and escaped into Monongalia County."

Philip and David were appointed to take charge of his estate. This is the only direct record found about him, but a few years later some land transactions indicated more. Because his disappearance or death was after the killing of his father, John Minear, Sr., by the Indians, his property, if he was unmarried, went back to his father's estate and was then distributed to his brothers and sisters. This seems to have been done by a series of deeds from the descendants to one another. In Harrison county, Deed Book 4, page 96, (March 12, 1798), and in Book Five, page 80, (April 13, 1801), David Minear, Sarah Minear, Catherine (Minear) Haddox, William Haddox, Philip Minear, Mary (Minear) Saylor, John Saylor, Elizabeth (Minear) Washburn, Samuel Minear, and possibly others, deeded to Adam Minear, son of John Minear, Sr., 369 acres on Tygert's River, patented to John Minear, Sr. This was for land descended to the "heirs of John Minear, Sr., and the share for his son John who had disappeared." In Randolph county, Book One, page 561, Sept. 7, 1797, Sarah Minear, William and Catherine Haddox, John and Mary Saylor, Philip and Winnie Minear, "heirs at law of John Minear, supposed to be deceased" deeded to David Minear 198 acres originally patented to John Minear, Sr., April 20, 1784, opposite Clover Run, including the Minear settlement of 1776.

Jonathan Minear (XVII 5).

The place of birth of Jonathan Minear (XVII 5) is not known; probably in Pennsylvania or Virginia. He was at least 21 years old in 1776, for on that date he made a settlement in Tucker County below the mouth of Clover Run on land afterward deeded to him by the state in 1781. This shows the date he came from Hampshire County. He built a cabin on the place and raised a crop.

At the time of his death most of the families had moved within or close to the fort on account of indications of Indians in the vicinity. For some days there had been no signs of the Indians and the settlers started back to their farms to look after their stock. (It was afterwards learned that the Indians had been watching the neighborhood for several days from the opposite side of the river.) Jonathan Minear with his brother-in-law, Philip Washburn, and one of the Camerons left the fort at sunrise. Cameron's farm was on the North side of Cheat River but Jonathan and Washburn had to cross the river. When they reached the cabin, while Washburn went to the field to feed the cattle, Minear went to the crib for corn for the hogs. As Washburn, with a load of fodder, was passing through the fence bars he was grabbed by the Indians. Immediately there was a discharge of guns; Washburn saw Jonathan running

towards the river with a dozen Indians after him. He ran as though wounded, (he had been shot in the thigh) and the savages soon overtook him on the river bank. Jonathan saw he could not escape and, to avoid their tomahawks, ran round a beech tree to ward off the blows aimed at his hands. Several times they missed him and the marks of the tomahawks are still to be seen on the tree at this time (1948). Finally his head was split by a tomahawk and a piece of his skull was fastened to a nearby stump.

All this was seen by Cameron from the opposite side of the river. He started at once for the fort to notify the men there but they had heard the shots and were already on their way down when they met Cameron. They decided that since both men were likely dead the wise thing to do was to prepare for defence of those in the fort. (They did not know at the time that Washburn was not killed but taken prisoner.)

The next morning on going to the farm they found the body of Minear but no trace of Washburn. By examining the trail of the Indians they found one track different from the rest and decided that Washburn had been taken prisoner. As soon as possible the settlers followed the trail and on the second night caught up with the Indians. David, brother of Jonathan, crawled near enough to spy out the positions and saw Washburn was there. The camp was immediately attacked, two or three Indians killed and Washburn rescued.

It is not known where Jonathan Minear was buried but it is understood that it was east of St. George.

No one knows whom Jonathan married. Evidently he had a family, for he had entered 200 acres of land and had a cabin and crop on it. As to the time of his death there is some uncertainty. David in his application for a pension says Jonathan was killed in March, 1783. In 1789, according to the county records Philip Washburn was appointed administrator of his estate. The use of the word "administrator" indicates no will.

In 1801, John Minear sold to William Howell, 59 acres of land "near Clover, below it"; on the same date he sold Benjamin Marsh 149 acres "near above tract." This land was the same as owned by Jonathan Minear. In June, 1801, John Minear, "son and heir of Jonathan Minear, who was the son of John Minear, deceased" joined with many others to clear the title to some land connected with the death of John Minear, Jr., who was the missing son of John Minear, Sr. Nothing further is known about this family.

Sarah Minear (XVII 6)

No date of birth is known. Sarah Minear (XVII 6) was married to Benjamin Marsh in 1799; the ceremony was performed by Robert Maxwell in Randolph County. On Oct. 22, 1798 David Minear sold his sister Sarah some land on the west side of Clover Run. John Minear (evidently son of Jonathan Minear) sold Benjamin Marsh 149 acres "close to Clover". The Marsh family lived in this vicinity many years; some went to Ohio. Benjamin Marsh sold 149 acres to his son William who later moved to Monongalia county and later to California. This information is from Mary Olive Marsh (XIX 144).

It is not known definitely where Sarah and her husband Benjamin Marsh are buried, but very likely on the old Marsh (later Auvil) place below the mouth of Clover.

Katherine Minear (XVII 7)

Katherine Minear (XVII 7) married William Haddox before 1797, for deeds made by her at that time showed her married name.

The Haddoxes seem to have lived in (now) Barbour county where several land entries are found.

William Haddox served as a private and spy in the Virginia Militia during the Revolutionary War. His descendant Homer Carrell Haddox, of Wheeling, West Virginia, is a member of the Sons of the American Revolution through the services of William Haddox. His National number is 69,499.

Elizabeth Minear (XVII 9)

The dates of the birth of Elizabeth Minear (XVII 9) and of her marriage to Philip Washburn are not known, but in 1790 she joined her husband in a deed. Washburn was with his brother-in-law Jonathan Minear when the latter was killed in 1783 or 1789; was taken prisoner by the Indians but rescued in a few days. On April 29, 1789, he was appointed administrator of the estate of Jonathan Minear.

Nothing further is known as to his residence, death, or any descendants.

(Daughter) Minear (XVII 8)

There is much evidence that a daughter married a Buckalew from Preston County. Considerable search fails to show anything further as to this marriage; no land grants are found. There were some Buckalews in Preston county later, but no definite indication that they were connected with the Minears.

Mary Ann Minear (XVII 10)

Mary Ann Minear (XVII 10) married John Saylor in 1795. Nothing definite is known about them. There is a persistent tradition that Saylor started up Saylor Run, (near St. George, named after him), and was never seen again. As to the spelling of the name there is some confusion. In the original marriage record of David Minear are found the signatures of John Sailor, Lizbeth Sailor and Frederick Sailor, but in all the land records the name is spelled Saylor.

David Minear has interest in 198 acres above Clover Run. In 1793 the assessor's list indicated that he had two horses. Nothing further is known about the Saylor's.

Samuel Minear (XVII 11)

The date given for the birth of Samuel Minear (XVII 11) is 1780. If so, he was about a year old at the death of his father, and was born at St. George, W. Virginia. His name does not appear in the early land transactions for he was not old enough. Samuel married Charity Gough sometime after 1801. He moved to Athens County, Ohio, where many of his descendants now live. The place of his burial is unknown.

Other Minears

On September 26, 1732, the ship Mary, with John Gray as master, landed in Philadelphia. This vessel shipped from Rotterdam and stopped at Cowes. On it were Christian Mineer, aged 28 and Hans Jerck (or George) Mineer, aged 26 years. (The names of the same persons on the list of Oaths of Allegiance and Oaths of Adjuration were spelled Miner and Minier.) This branch has been well worked out by Mrs. Jessie Howell Finch, 407 Wilson Lane, Bethesda 14, Md., but no connection has been found with the John Minear of this book.

The John Minear, of this collection, lived in Hampshire county, (West) Virginia. He left there in the 1770's and was killed by the Indians in 1781. There were other Minears in Hampshire county at that same time. One John Minear died in Hampshire County, W. Va., June 13, 1796; His wife was Mary; there were four children, Isaac, William, Abraham and Mary Glaze. Reference is made in the Minute Book of Hampshire county (1795 to 1798), page 272, to the proving of the will of John Minear. His widow was Mary Minear; Isaac Minear, (presumably his son) was executor. Isaac and Mary made deeds to some of the land Oct. 23, 1802. (Deed Book 13, page 203.) It seems that this John Minear entered and surveyed his land in 1790. Isaac Minear surveyed a road in 1798; he had law suits with several persons. There was a William Minear in that county in 1798. (deed Book 11, page 145.) In 1790 a Catherine Minear had some civil suits in the courts. This is all that is known about them. There seems to be no connection between them and John Minear of this collection. The fact that two Johns seem to have been in Hampshire at the same time is very confusing but the "Hampshire" John was living after the Tucker county John was killed.

In my former publication were listed many Minear descendants who were termed "Preston County Minears" because many were found there. They are not repeated in this book since no connection has been found with the John of this collection. They seem to have been descended from William Minear and Mary _____. One of the children of this William seems to have been born Aug. 16, 1776 and married in 1801; another child was born in 1775. This would indicate that this William was born before 1755. There is a tradition in the family that the John Minear of this collection was their ancestor but no supporting evidence has been found. The fact that some of the descendants of Adam Minear (XVII 3) lived in the same neighborhood may have given rise to the tradition.

Another group of Minear s lived in Iowa. They claim to have descended from William Minear, born Feb. 11, 1793, died Feb. 1, 1872, and Mary Elizabeth _____. They, too have a tradition that they are descended from the John of this collection, but no supporting evidence has been found.

These notations are made to assist those who may be trying to connect the different families. Any one who can give any information about them will do a great favor to correspond with me.

Families and "In-Laws."

The following two lists were the hardest of all to compile. They are more suggestive than definitive. To go over several thousand names and check for maiden names and childless marriages are both very difficult. What is given will be helpful. Corrections and additions will be welcomed.

Index of "In-Laws."

Number of Different Family Names	808
Number of Inlaws and Marriages	2888
Approximate Number of Adoptions	35

For convenience in finding the relationship of any two persons named in this list, this suggestion is made.

On a separate sheet of paper, line plenty of space for generations in this manner.

	John Minear XVI	
_____	XVII	_____
_____	XVIII	_____
_____	XIX	_____
_____	XX	_____
_____	XXI	_____
_____	XXII	_____
_____	XXIII	_____
_____	XXIV	_____
_____	XXV	_____

On the right-hand side of the Roman number, indicating the proper generation, place the name of the person you wish to connect with the other person. On the next line above, write the name of the parent who is of Minear descent. Follow this out until you reach John Minear (XVI). Then, on the left-hand side, starting with the proper generation line, do the same with the other person you wish to trace back. At some place you will find the common ancestor and can thus tell the relationship between the two persons in question.

Descendants of JOHN MINEAR (XVI) of whom there is no further information known.

They are arranged by generations, under the head of each of the children of John Minear. To facilitate locating the names of the "missing" ones, the parents are given just before the names, and are enclosed in parentheses.

If anyone is able to give any more information about any of these names, it will be welcomed. Some of them were never married; or, if married, had no children; others may have died very young. Often in sending in the names of children, those who died early or were never married, were omitted by the senders.

This is what is desired about the names:

- (1) Dates of birth, marriage, death; place of residence.
- (2) If married, name of husband or wife.
- (3) If never married, so indicate.
- (4) Names of any children or grandchildren, with dates and residences where known.
- (5) If you cannot give anything about them but know some one who can, please give the name and address of the person.
- (6) When writing me, please give the letters and numbers following the names, so as to locate them more easily.

Send any information to
